ABOUT ME

I am a passionate full-stack and DevOps developer specializing in designing and deploying modern, high-performance, user-centered web applications. With expertise in Java, Jakarta EE, JavaScript, TypeScript, React, Angular, and PostgreSQL, I build robust front-end and back-end solutions tailored to business needs. My proficiency in DevOps tools (Docker, Git, Azure DevOps, Jira) and Agile/Scrum methodologies enables me to manage projects efficiently and collaboratively.

SOFT SKILLS

Collaboration
Problem Solving
Adaptability
Communication

[Java\(spring\)](#) - [React\(TS\)](#) - [PostgreSQL](#)
- **Rest Api Task management System for StartUp**
Laravel - MySQL - LaravelSanctum
- **medical school qbank**
Java(spring) - React(TS) - PostgreSQL
- **[PlanetSport \(Wordpress\)](#)**

PROFESSIONAL EXPERIENCE

Freelance Projects

SoftSevenArt, Casablanca | Fevrier 2023 - Mai 2023

Designed and created a RESTful API for a SaaS web application to manage company tasks. Tools: PHP, Laravel, LaravelSanctum, MySQL, dbdiagram, Postman.

Tools: PHP, Laravel, LaravelSanctun, Mysql, dbdiagram, postman

Growth startup, Casablanca | Decembre 2023 - mars 2024

Built **PlanetSport**, a responsive e-commerce platform for sports items using WordPress and Elementor. Integrated WooCommerce for sales management, Yoast SEO for ranking, and WP Rocket for performance, delivering a smooth user experience.

Tools: WordPress, Elementor, WooCommerce, Yoast SEO, WP Rocket

Stage in Mobile Development

Digital Sky, Casablanca | avril 2024 - septembre 2024

Developed **NitroSales**, an intuitive mobile app for product sales with robust offline capabilities. Implemented a secure backend with Java Spring and third-party authentication via Keycloak, plus secure transactions, advanced search, and efficient product management. Designed a fluid user interface to enhance customer experience.

Tools:

- **Frontend:** React Native, Expo, Expo SQLite, Axios, Tailwind CSS, Reanimated
- **Backend :** Java Spring
- **Authentication :** Keycloak
